

## **Editorial**

I feel euphoric that we are going to publish annual Issue 2018 of "The Impression", the academic, research based, multi disciplinary journal of our college.

We look forward keenly to publish our most cherished journal on regular basis and we ardently think that this journal would be able to touch the very high benchmark, so that this bouquet of assorted research papers gets included in the UGC Care List.

We enthusiastically believe that the immortal lines by the reputed English poet Lord Tennyson's Ulysses would be the everlasting mantra for the odyssey of this journal:

“To follow knowledge like a sinking star,  
Beyond the utmost bound of human thought.”
